TUESDAY, JULY 31, 1894.

A PROGRESSIVE PRESIDENT.

The bill to create a National Board of Arbitration, introduced by Congressman Springer, has been reported favorably to the House by the Committee on Labor. The bill is based on the recommendations which President Cleveland sent in a message to Congress in 1893, at the time of the great strike on the Gould railroad system.

Seven years ago the President recommended arbitration as the best method of settling existing strikes and averting strikes in the future. Congress acted on the suggestion and passed an act providing for an Arbitration Commission, which the President approved. The act was simply directory, yet a prompt application of its provisions might have averted the recent strike, which, for sixteen days, tied up nearly all the trunk railroads of the country. The President had a new inspiration, however, and he acted upon it. Instead of instituting inquiry as to the cause of the strike, as the law provided he might do, he ordered the whole United States army out and sent troops into peaceable communities where the civil authorities were amply able to maintain order, and establish boycott rule, where not even a constable had been resisted in the discharge of his duties. This is a progressive age. The President has brushed aside the antiquated idea that local authorities are the best judges of their ability to maintain order in their respective communities. He has established the precedent of sending United States troops to supercede the civil power, where there has been no breach of the peace, without the knowledge or consent of the Sheriff or Governor, in short, he has progressed from arbitration to Lynch law as a means of settling strikes in a few years.

CARNegie A FREE TRADER.

Andrew Carnegie, in an interview in the London Engineering Review of last Saturday, is quoted as saying he does not think the United States now requires protection. He claims that it is of little value for revenue purposes, as manufactured imports have fallen so low.

Only a few years ago Carnegie was one of the most pronounced protectionists in the United States. Protection made him a multi-millionaire and he was "pointed out with pride" as an example of the great benefits the country was deriving from protection. He went to Europe and purchased feudal estates at a cost of millions with the money he made under the protective laws of this country. Though his company was declaring dividends of a million or two millions a year, it was continually reducing the wages of employees and strikes were the order of the day. The company received a contract from the Government to furnish armor plates for war vessels, though foreign contractors would have furnished them at a cheaper rate. According to investigations made at Washington defective plates were furnished the Government notwithstanding the high price paid for them.

All things considered it comes in bad taste for a man who has made millions by protection to declare against it, even though he has left the country where he accumulated his millions to live in the land where he invested those millions. It is very probable judging by the debates in Congress on the tariff bill, that steel can be manufactured to-day as cheaply in the United States as in any country, but there are other industries that must be protected to a reasonable extent from foreign competition or they cannot survive.

THE EXODUS TO EUROPE

The exodus from the United States to Europe is unprecedented. Every steamship from New York and Boston takes a full complement of passengers to European ports. About 30,000 steerage passengers and half as many cabin passengers leave every month. General Manager Whiting of the Cunard line says the emigration commenced early in the spring and every line is taxed to its utmost to accommodate it. The steerage passengers comprise the best class of mechanics and working people, and the cabin passengers are Americans, who are going to see the Old World, and Europeans, who came here to see the World's Fair.

While the absolute cause of the exodus is not known, it is surmised that the steerage passengers, who are generally respectable looking people, sent money to their friends abroad when times were good in the United States and are now going to live with those friends. The cabin passengers, with the exception of the returning World's Fair visitors, are Americans who have accumulated fortunes and desire to show off in foreign lands. It is estimated that this class spend \$100,000,000 annually in Europe. Last year many of them remained at home to see the World's Fair and now go to Europe to spend the fall and winter.

NO DISPOSITION TO TRY THE CASE.

A communication relative to the late unfortunate tragedy is given a place in the JOURNAL this morning, and it is hoped it will be the last on the subject. Every good citizen deprecates the occurrence. The JOURNAL has evinced no disposition to try the case in its columns, though the communication implies the contrary. The courts are fully capable of attending to that matter, and there is no doubt whatever of a thorough and impartial investigation being had and of a verdict being rendered in accordance with the evidence.

THE SENATE WAVERING.

Simplifying Charges Against the California Strikers.

SPECULATING IN ARMS.

A Farmer Thrown From a Wagon and Instantly Killed.

An indication that the Senate is wavering on the tariff.

WASHINGTON, July 30.—For the first time since the tariff bill has been in conference signs of wavering from the strong line that has stood behind the "Senate bill or none," has been repeated to-day but less frequently and with less emphasis than heretofore. The only explanation for the brief conference to-day is the fact that the House conference feel the situation is changing in their favor. Mails and telegrams to the Democratic Senators with urgent appeals to pass a bill which will not favor the trusts and which will be in line with the demands of the party platform have been numerous. These requests upon the Senators are endorsements of the position of the President and the House in the main points of difference. That these telegrams are having an effect and have caused Senators who are the most insistent upon the Senate as regards coal, iron ore and sugar no little concern. Pressure is being brought to bear on the Democratic conferees of the Senate to report an agreement with modifications of the principal items.

A compromise is being suggested to the extent of a flat ad valorem rate of 45 per cent on sugar with an extension of bounty to January 1, 1895; free iron ore and coal 40 cents a ton with a reciprocity provision that coal shall be admitted free from such countries as grant free admission to coal produced in the United States has caused considerable uneasiness among the Democrats of the Senate, and especially those who are known to be steadfast in their demands for the Senate bill in its main features.

The reliance of the House upon the outside pressure and Democratic sentiment that seems to be rallying around the President and House from the country at large is claimed will grow stronger from day to day until the Senate conferees will be compelled to yield. The prestige which the Administration obtained in the conference over the unconditional repeal of the silver purchasing law has been pointed out as being an evidence of the determination now with which the solid backing of the Democratic leaders in the House will bring about a similar result on the tariff bill. The tension between the Senate and House as marked as the close of the session to-day is as great as it had been at any time previous. The Democratic members of the conference found themselves in a complete deadlock when they met during the forenoon and the full conference called for 1 o'clock found themselves without business before it convened. The full conference did not continue to exceed fifteen minutes and the proceedings consisted simply of a statement by the Democrats to the Republicans that the Democratic conferees had been unable to reach an understanding, a suggestion on the part of Chairman Wilson of the House conferees that the conference would adjourn subject to the call of the chairman, which suggestion was acquiesced in by the Republicans.

The Woodland Examination. WOODLAND, Cal., July 30.—There was nothing startling in the testimony given to-day in the trial of the strikers H. F. Marshall, a Stockton militiaman, testified as to the conversation carried on between the members of the strike committee in his presence, but nothing new was elicited. He said that he had found no arms in Knox's room. Some one of the committee said, "the boys made a mistake," when speaking of the bridge disaster.

F. H. Milroy, a deputy, testified that he had never seen firearms in the possession of any of the defendants. C. O. Howell testified that he had seen armed strikers in the halls and passage ways of the building in which the Mediation Committee had its rooms.

Knox when asked whether he was standing by his family or the A. R. U., replied, A. R. U.

Chinese Steamship Companies to Speculate in Arms. LONDON, July 30.—During the last fortnight the firms having Chinese interests have offered the steamships, rifles, ammunition, etc., at very reasonable figures, and to-day several of these firms have received cablegrams that the prompt delivery will be a condition of the sales. Chinese and Japanese securities are still at a normal figure.

A Copper Mine Exhausted. MARQUETTE, Mich., July 30.—The Central Copper Mine Company has closed down after forty years continuous operation. The vein is exhausted. This ends the copper mining industry in this county.

LOS ANGELES SHAKEN.

Panics in the Churches.

LOS ANGELES, July 30.—This city was shaken by an earthquake last evening at 9:11 o'clock. The direction was from northeast to southwest, though most of the movement was more of an upheaving than an undulatory character.

In most of the churches the services were just being finished, and were concluded in some instances in a more hasty than dignified manner. In the New Era church a tremendous congregation started at once to stampede, panic-stricken by the violent tossing of the building, but the ushers by prompt cool-headedness succeeded in staying the flight a moment, which was sufficient to bring the people to their senses. At the hotels there was some excitement among the guests, but not many had retired.

In some of the high-storied blocks of the city panes of glass were broken and things generally shaken. Telephone reports show that the shock was felt as far east on the line as El Monte and to the coast. It is described as a sharp shock, but not doing damage at all places. At Santa Monica a tidal wave was looked for by the timorous, but no indication of one was noticeable.

At Acton there were three distinct shocks, the most severe ever felt in that region, but no particular damage is reported. The peculiar feature of the affair at that place, however, was that immediately after the vibration ceased a large meteor, similar to the one which attracted so much attention on Friday night here, was seen to fall in the north. It appeared like an immense ball of blue fire and apparently moved from the zenith to the north in a rapid way.

An Omnibus Complaint.

SAN FRANCISCO, July 30.—The United States District Attorney is preparing an omnibus complaint against the A. R. U. men in jail in Northern California charged with offenses against Federal law. A complaint will probably be lodged before United States Commissioner Hancock as committing magistrate to-morrow. This complaint is to take the place of a multiplicity of complaints now on file against the railroad strikers. The charge will allege interference with interstate commerce and trains, and conspiracy to retard the progress of United States mails. The desire is to simplify many of the charges against overt acts occurring at different times and places. We do not want these men to feel," said Assistant United States District Attorney Knight this evening, "that we are piling up charges against them. There is a desire to treat the strikers in a spirit of fairness and not to prosecute them, but to punish them for their criminal acts." The defendants will include between thirty and forty strikers from Sacramento and Red Bluff, several of whom are now incarcerated in San Francisco.

A Desperate Family.

TECUMSEH, Neb., July 30.—As a result of a shooting affray in Pawnee county to-day two men are dead and two seriously wounded. James Abbott, a well-to-do farmer, living next to Charles Schultz, allowed his boys to trespass on the Schultz fields after repeated warnings until Schultz could stand it no longer. This morning he and his sons went over to Abbott's farm with a shot gun, and as soon as Abbott appeared Chas. Schultz raised the weapon and fired, fatally wounding Abbott.

Sheriff Stone organized a posse to go after the murderers, but the Schultz boys were too quick for them, and a stormy scene ensued. After repeated calls to stop, the deputies fired and wounded the farmer and his two sons. The elder Schultz is dead, his son Frank is now in jail and Charles has not been apprehended.

Charge It to the Strikers

CINCINNATI, July 30.—This evening the St. Louis express on the Ohio & Mississippi Railway due at 5:30 ran into a freight on a siding at Cochrane, Indiana, twenty-eight miles from this city, wrecking the passenger engine and a dozen freight cars. The freight had taken the siding, expecting to follow the express. Someone had evidently opened the switch after the freight had run in, as the trainmen state they left it closed. The rear of the freight train was wrecked as well as the engine of the passenger train. The engineer of the passenger train was so badly hurt that he died in an hour afterwards. The fireman was caught in the wreck and lost a leg.

Oh, Yes, Charge It to the Populists! SPOKANE, Wash., July 30.—The people of the Southern part of Spokane county are intensely excited over the kidnapping and murder of Charles Gloystein, a prominent farmer and Republican politician of Mica. Gloystein was called out of bed at midnight last night and has not since been seen. His hat, cut with a blunt instrument and covered with bloody hair, was found to-day by a searching party. The missing man had incurred the enmity of the Populists of his neighborhood and the feeling against him in that party was intense. A short time ago he was hung in effigy and a number of threats were made against his life.

Grave Charges Against the Chicago Police.

CHICAGO, July 30.—The Grand Jury to-day filed its report saying: "We find gambling carried on to the fullest extent in Chicago with the doors wide open, and coppers and stool pigeons playing their vocation to catch the unwary for the purpose of fleecing any victim who happens to fall into their hands, and that the heads of the Police Department in this city are giving some places mentioned ample protection from arrest and prosecution."

OPPOSITION TO PULLMAN.

A New Company Arranging to Build Cars.

CHICAGO, July 30.—The Record publishes the following: If the negotiations now pending are carried to a successful termination, the striking car builders at Pullman will quit the "model town" in a body and become the employees of a powerful new corporation organized for the manufacture of palace and freight cars and day coaches. For more than a week secret communications have been passing between the agent of the corporation in Chicago and the strikers' Central Committee. The offer to the men is in writing, signed by a man of wealth and prominence in the business circles of the city. The names of a number of capitalists who are connected with the enterprises are also mentioned to give the communication greater weight.

Thus far the deliberations of the Central Committee and their replies to the advances made by the corporation have been kept woefully secret, but it is known that every member is heartily in favor of the change if reasonable terms can be agreed upon. As soon as the negotiations have reached a more definite basis the matter will be laid before the body of the strikers for their sanction and approval.

New Officials.

WASHINGTON, July 30.—The following nominations have been made: Treasury—John W. Peck, Assayer of the Mint, San Francisco.

Justice—Judges of Probate, Utah—Thomas J. Brandon, Davis county; James L. Bunting, Kane county; John C. Dalamar, Toole county; J. M. Grant, Rich county; Achilles Ferrin, Weber county; Noble Warrum, Cache county; Wm. S. Willes, Wahsatch county.

James I. Crutcher, Marshal for the district of Idaho; Gibson Clark, Attorney for the district of Wyoming; John A. McDermott, Marshal for the district of Wyoming.

George H. Isalah, postmaster at Ogden, Utah.

Too Much Taxis

WASHINGTON, July 30.—Senator Voorhees passed a very bad night, and has not been able to attend the tariff conference to-day. The Senator is suffering from a complication of troubles, and an operation may be necessary, though his condition is such, it might be attended with considerable risk.

Sensor Vest has had an attack of erysipelas, but he is at to-day's meeting of the tariff conferees.

An Amendment Giving Congress Jurisdiction Over Trusts.

WASHINGTON, July 30.—Representative Hutchinson of Texas introduced a resolution for an amendment to the constitution to give Congress jurisdiction over trusts. The amendment proposed was reported as follows: "Trusts and monopolists dealing in agricultural products or other articles of prime necessity, shall not exist in the United States and Congress shall have power to enforce this article by appropriate legislation."

Instantly Killed.

SONOMA, July 30.—John Harper, an old resident and prominent farmer of this valley, met with instantaneous death on his farm this morning by being pitched violently from the seat of his wagon. Harper was in the act of taking hold of the reins when the horses suddenly started, throwing him to the ground and breaking his neck in the fall.

Will Return Home.

SACRAMENTO, July 31.—The eighth regiment, composed of companies from Chico, Marysville, Oroville, Colusa, Willows and Red Bluff, have been given orders to break camp and return home this evening. The regulars will remain here for an indefinite period.

United States Marshal Baldwin returned this morning from Dunsmuir, where he has been investigating the state of affairs. While the late strikers appear to be peaceful enough he has decided it would not be wise to remove the troops from that point for some time to come.

The largest assortment of heating stoves, parlor stoves, cook stoves and ranges, crockery and lamps at panic prices at Lange & Schnitger.

A Bright Lad,

Ten years of age, but who declines to give his name to the public, makes this authorized, confidential statement to us: "When I was one year old, my mamma died of consumption. The doctor said that I, too, would soon die, and all our neighbors thought that even if I did not die, I would never be able to walk, because I was so weak and puny. A gathering formed and broke under my arm. I hurt my finger and it bled and I threw out pieces of bone. I felt myself so as to break the skin, it was sure to become a running sore. I had to take lots of medicine, but nothing had done me so much good as Ayer's Sarsaparilla. It has made me well and strong." J. D. M. Norcross, Kalamazoo, Mich.

AYER'S Sarsaparilla Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Cures others, will cure you

A GENTLE WOMAN

Wishes a toilet cream to promote that

Brilliant Transparency of the skin, which is the true beauty of the complexion. She wishes it to have the true fragrance of the flower and the gentle tonic action of the healing balsams, which render the skin soft, white and beautiful without injury to it.

She wishes the refreshing, soothing effect of the best and simplest ingredients blended into a perfect cream. She finds it in Cocoon Cream and will have no other.

She never uses the paints and face blushes which are so injurious to the skin.

GENTLEMEN after shaving find Cocoon Cream most excellent.

COCOON WATER is the natural fragrance of flowers for the toilet and bath.

COCOON BALM prevents and heals chapping, breaking and roughness of the skin.

THE COCOON TOILET SPECIALTIES are manufactured only by the

Cocoon Company,

SAN FRANCISCO, CAL.,

and we have secured the agency of same, as it is our constant effort to supply the public with the finest and latest Toilet Art and the purest of Drugs and Medicines

Big Fire in Minneapolis.

MINNEAPOLIS, Minn., July 30.—The third disastrous fire in the history of Minneapolis broke out this afternoon in the lumber yards back of the Mississippi river at the foot of Eighth avenue north, and spread with remarkable rapidity and before it was controlled it destroyed property valued at a half million dollars.

WANT ANY FERTILIZER?

The Chilean Government Giving Away Nitrate of Soda to American Farmers.

The Chilean government has appropriated a large sum of money to pay for the transportation of several cargoes of nitrate from Chile to the United States and the establishment here of a bureau of distribution. A committee has been appointed to represent the Chilean government in the matter, and to be made with it in comparison with domestic fertilizers.

The people of Chile believe that if the people of this country once know the value of nitrate of soda, a fertilizer which will be a great advance to the farmer, they will be quick to take the bait. The Chilean government has a market for the nitrate of soda in the United States. Up to the present time the Chilean agent has established temporary headquarters and is working in conjunction with the department of agriculture. Up to the present time a ship's cargo has been given out in this way to farmers and horticulturists. Experiments in the past prove that the nitrate is a valuable top dressing for wheat and oats, a hundredweight of the nitrate per acre producing an increase in the crop of 15 bushels per acre in wheat and from four to five sacks in oats. Arrangements are being made to send to a large number of prominent farmers in various parts of this country a sufficient quantity of nitrate to fertilize an acre of land, in order that the value may be compared with other fertilizers in a growing ground. Several cargoes of nitrate will be sent here for the purpose.—New York World.

The World Is Washing Away. An interesting calculation has recently been made public through one of the many publications of the French Academy of Sciences. It is to the effect that, taking into consideration the wear and tear on the solid land by ocean lashing, river erosion and wind and weather, to say nothing of probable volcanic action, the world will by the end of the year 4,500,000 be completely washed away, and the ocean will roll over the present foundations of our great continents.—London Standard.

Expensive Warfare.

The cost of firing one of Krupp's 130 ton steel guns is \$650, or, adding the cost of the projectile, \$200, about \$850 for each shot fired. The gun costs \$29,000, and it can only be fired at the most 60 times. Two shots a minute can be discharged, so that if it were fired continuously it would become valueless in about half an hour. The gun has a range of 15 miles, and the projectile weighs 2,600 pounds.—London Court Journal.

Used to It.

"Well, Jennie, I hear you and Tom have fallen out." "Yes. I gave him his quinine last evening. He really thought I would have him, when I was only firing." "How did he take his rejection?" "Oh, easily enough. You know he is used to taking negatives. He's a photographer."—London Quiver.

Chinamen, when they refer to their wives—which is as seldom as possible—speak of them as "My doll them," or "The shen in my ribs," or "The man one of the inner room." Children similarly are styled "insects" or "worms," much as you say "chicks" or "cuts."

New England Dinner.

The ladies of the Congregational Church will give a New England dinner on Thursday, August 2d, from 4 to 7 P. M., in the basement of the church. Dinner, including tea, cream, etc.

Situation Wanted.

A colored girl from the East wants a situation in a private family. Inquire at Mr. S. Emrich's on First street.

BARGAINS!

In order to make room for my

Spring and Summer Goods,

WHICH ARE NOW ARRIVING,

I propose to sell all goods remaining over from my Winter's Stock at a discount of 20 per cent, which will bring

SUITS VERY LOW!

Thin Children Grow Fat

on Scott's Emulsion, because fat foods make fat children. They are thin, and remain thin just in proportion to their inability to assimilate food rich in fat.

Scott's Emulsion
of Cod Liver Oil is especially adaptable to those of weak digestion—it is partly digested already. Astonishing how quickly a thin person gains solid flesh by its use! Almost as palatable as milk.

TIME TABLES.

BREVITIES.

The N.C.O. is running daily trains again.

D. A. Bandler of Carson spent Sunday in Reno.

Colonel Maxson left last night for Wells.

General Turritt left for Humboldt last night.

W. E. F. Deal of Virginia was in town yesterday.

Henry Cutting has returned to Esmeralda county.

Geo. W. Baker returned to California Sunday night.

Jas. Orloff returned to San Francisco Sunday night.

W. H. A. Pike arrived from Wadsworth Sunday to attend the funeral.

A colored girl desires a situation in a private family. See advertisement.

J. A. Bird of Carson has received a pension and back pay amounting to \$375.

Mr. Watson of Salt Lake City is here looking up ores for smelting works in that city.

No better liver or kidney medicine was ever produced than Ayer's sarsaparilla.

Garden hose, lawn mowers, paints and oils at lowest prices at Lange & Schmidt's.

Farmers can exchange hay, potatoes, etc., for lumber, etc., at the Summit Mills, Dog Valley.

No fewer than 100 women appear on a Louisiana list of persons producing sugar and receiving bounty thereon.

David McKissick, charged with assaulting Mrs. J. W. Kinart, was on trial in the Justice Court yesterday.

The ladies of the Congregational Church will give a New England dinner next Thursday, to which all are invited.

Rev. T. L. Bellam of Wadsworth visited Reno yesterday. He says everything is running as usual down the river.

Nineteen crates and forty-seven tubs of butter were received from the Douglas Creamery last night and shipped west.

The V. & T. local was held on Sunday until after the funeral so as to allow those from a distance to return to their homes.

Hundreds have testified to the curative properties of Ayer's Cherry Pectoral in colds, coughs, and other throat and lung troubles.

When the scalp is atrophied, or shiny bald, no preparation will restore the hair, in all other cases Hall's Hair Renewer will start a growth.

A. Bradshaw, a West Virginia, boy only nine years old hanged himself the other day because he had to take care of the younger children of the family.

John Young Taylor of New York City, a cousin of Mrs. M. D. Foley, is here. He was in San Francisco at the time of the death of Mr. Foley and came here to attend the funeral.

THE FUNERAL SUNDAY.

The Remains of M. D. Foley Borne to Rest.

Buried With Military Honors, and the Impressive Ceremonies of the I. O. O. F.

Shortly after one o'clock Sunday afternoon the Guard, Odd Fellows and Knights of Pythias marched quietly to the residence of the late M. D. Foley where a large number of the friends of the deceased and his family had already gathered. At two o'clock the residence was filled to overflowing and the streets adjacent were crowded with vehicles and the military and civic organizations in attendance. After appropriate opening music by the choir the impressive services of the Episcopal Church were read by the Rev. Mr. Unsworth. The floral offerings were almost without number, and of every appropriate design and all very beautiful. After the services at the house were concluded all were given an opportunity to view the remains and then the last sad duty of the organizations and societies to which the deceased had belonged, of bearing their fellow member to his last long home began. The procession was headed by the band, followed by the Reno Guard as an escort. Then came the hearse. The pall-bearers were M. A. Murphy, A. H. Manning, S. J. Hodgkinson, D. W. O'Connor, J. R. Bradley, G. F. Turritt, J. N. Evans, A. G. Fletcher, W. O. H. Martin, R. L. Horton, H. F. Bartine and L. Abrahams. Col. F. C. Lord of Virginia directed the funeral procession. Each pall-bearer carried a bouquet of white flowers. The mourners' carriages followed the hearse, then the Governor and staff General Keating and staff, Uniform Rank, K. of P. and Odd Fellows, of which organizations deceased was a member. These were followed by a long line of carriages bearing friends of the family and citizens.

As the long procession headed up Virginia street, with the band playing a solemn dirge, it was a sad scene indeed, and the unfortunate circumstances connected with the tragic death of the deceased made it seem doubly so. The streets were lined with spectators, all standing in respectful silence as the cortege passed.

At the cemetery R. C. Keeper, Past Grand, read the burial service of the Odd Fellows, and the members of that organization and the Knights of Pythias threw into the open grave the sprig of evergreen, which is a part of the mystic ceremonies of both orders. The Guards then fired a military salute over the grave and the bugle sounded "lights out," and all was over.

The comments of the afternoon and evening were much the same, and were that a good man for Reno and the State had been snatched away in the prime of life and at a time when his efforts in behalf of the community were bringing about good results.

M. D. Foley had his faults, but who has not? Let he who is entirely blameless cast the first stone. While he prided himself on his sagacity in business transactions, and like men of wealth usually are, he was close in his dealings with people, yet he can be credited with many kindly acts, and his charities were numberless and wholly without ostentation. To the very last, and even to the person who had taken his life, his prevailing desire seemed to be to studiously avoid any scene with her or to give anyone any trouble. This was notably a characteristic of the man, that remained with him up to the moment of unconsciousness.

His career is ended; his account is balanced, and his life-book is closed. For the sake of the stricken one left behind, let the dead past be buried in the grave that contains his remains, and the remembrance of the good he has accomplished be kept ever green.

Notice.

A meeting of the Democratic State Central Committee will be held at Carson City on Wednesday, July 25th, at 1 o'clock p. m. A full attendance is requested, as matters of importance will be brought before said meeting.

H. HARRIS, Chairman.

JOHN O'TOOLE, Secretary.

POSTPONED.

On account of the irregularity of running trains by the C. P. R. Co., the meeting of the Democratic State Central Committee, called for July 25th, is hereby postponed to Wednesday, August 15, 1894.

H. HARRIS, Chairman.

A Commendable Act.

County Commissioner McLaughlin found one of the papers calling for a convention of the Peoples Party on the street yesterday and instead of confiscating it as he might have done, he gave it to one of the subscribers whose name was attached thereto, as Mr. McLaughlin is not one of the Peoples Party, his act should be properly credited.

Viola's Record.

Four thousand dollars is Viola's record in Reno since June, 1892. This of itself speaks of its value. Call and get a health book. Consultation free, at the Viola Co.'s on Fourth street.

Miss B. E. Harker.

COST OF THE STRIKE.

The Loss Over Two and a Quarter Millions.

The San Francisco Call the other day published an interview with a prominent railroad man, who gives some interesting figures of the loss entailed by the Southern Pacific Company on account of the strike, dating from June 27th. The daily earnings are \$150,000 and for fifteen days the loss of earnings aggregated \$2,250,000. Of the 19,000 employees of the company 15,000 were out of work, averaging \$3 per day and aggregating \$450,000. The loss to the public is too vast and complicated to be estimated. Wells, Fargo & Co.'s daily loss has been \$10,000.

A Cut in Salaries.

The following cuts in the salaries of mint officials and employees appears in the Carson Tribune:

Superintendent, from \$3,000 to \$2,500.

Melter and Refiner, from \$2,500 to \$2,000.

Assayer, from \$2,500 to \$2,000.

Assistant Assayer, from \$2,000 to \$1,500.

Assistant Melter and Refiner, from \$2,000 to \$1,500.

Chief Clerk, from \$2,250 to \$1,800.

Cashier, \$2,000. No reduction.

Bookkeeper, from \$2,000 to \$1,500.

Weigh Clerk, from \$2,000 to \$1,500.

Appropriation for labor from \$53,000 to \$15,000.

Appropriation for incidental and contingent expenses, from \$25,000 to \$7,500.

If this is a true statement, and the appropriation is cut as above stated, it does not look as though coining would be resumed.

Death of W. L. Needham.

W. L. Needham died suddenly Sunday night at 10 o'clock, from hemorrhage of the lungs. Mr. Needham was around on Sunday morning and seemed about as well as usual, although he has been ailing for some time. He seemed to realize that death was near at hand for in his methodical manner he called in a friend to whom he gave full instructions regarding his business affairs and his last resting place. He is an old resident of Nevada, having lived for some years at Virginia City, afterwards moving to Reno, where he has lived for many years. He was a man of strong prejudices, but those who knew him intimately and who were associated with him in a business way found many good qualities in him. He leaves a wife to mourn his loss. He will be buried from Hoskins' undertaking parlors this afternoon at 4 o'clock.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood—will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of headache, constipation and indigestion try electric bitters—entire satisfaction guaranteed, or money refunded. Price 50 cts. and \$1.00 per bottle at S. J. Hodgkinson's drug store.

Advertised Letters.

Peterson, Myron A.

Powell, M. P.

Proffitt, S. G.

Portions, Mrs. Small

Schmidt, Anton

White, Mrs. E. L.

Wagner, Fred

Williams, W. H.

H. J. BERRY, P. M.

The Merrill Pension.

Captain Griffin received the pension papers yesterday in the case of Noah A. Merrill. The amount of back pension allowed was \$516. This is at the rate of \$12 per month from November 4, 1890, the time the pension was applied for, up to the time the pension was granted. Mr. Merrill died July 7, leaving a widow, who is entitled to the pension. The papers were sent from the San Francisco Pension Agency, and Mrs. Merrill has sent to that Agency for information as to the method of procedure to get the money.

Many Visitors.

Wm. Sutherland, J. A. Conbole, John Crosby, Miss C. Crosby, Genl. R. P. Keating, F. Gaden, E. Strother, E. D. Boyle, Col. F. C. Lord and Archie McDonald of Virginia City, J. Foulade, R. K. Colcord, Evans Williams, Tremor Coffin, O. H. Grey, B. F. Lynip, H. F. Bartine, G. W. Richards, F. J. McCullough, J. D. Kersey and R. L. Horton and wife were in Reno Sunday in attendance at the funeral of M. D. Foley.

COCONA WATER.

Is the natural fragrance of flowers and is therefore delightfully refreshing for the toilet and bath. This new and exquisite toilet water is much more agreeable than the artificial perfumes so commonly used, and is rapidly supplanting them in public favor. It is for sale by Wm. Pinniger.

Card of Thanks.

Mr. P. B. Comstock and his son Frank, return their sincere thanks to the many friends who so kindly assisted them during the last illness and burial of the late Mrs. Comstock.

Miss B. E. Harker.

TRIAL BY NEWSPAPERS.

What a Correspondent Says on the Subject.

Ed. JOURNAL—"While we claim to publish a fearless newspaper we would not stoop to anything so contemptible as the editorial in yesterday's Appeal by the Foley tragedy. * * *

"Have a little respect for the feelings of the living, neighbor, if you have not for the dead."

The above is a quotation from the Gazette of last evening. Not having seen the Appeal's article to which exceptions are taken, I have no knowledge of the extent of its offense against good taste or truth, but having just read the articles on the opposite page of the Gazette concerning the living party to the "Foley tragedy" it struck me that the rebuke of the Appeal was inconsistent on the part of the Gazette. The column extract of gossip taken from the Examiner and the other short article wherein the prisoner is tried and condemned by the Gazette do not show "respect for the living." It is to be hoped that the survivor of the tragedy of Thursday last will not be tried any further in the local newspapers, but be left to the county.

BREVITIES.

The Capitol flag was placed at half-mast Friday out of respect to Senator Foley.

England has 21 papers to every 10,000 population. France has only one. This is the difference between a gold standard country and one in which the free coinage of silver prevails.

While the troops are being withdrawn from nearly every place that could be termed a strike center the U. S. regular still mounts guard at our depot. Reno must have been a hard town and its citizens never knew it.

Prince Hatfield, C. P. Huntington's son-in-law, having lost \$10,000 at Saratoga, the limit fixed by the house to losers, and not being allowed to continue playing, upset the roulette table and smashed things generally.

One of the police officers of Gardiner, Maine, took a snore in an easy chair in his own front yard the other day. When he woke up his handcuffs were on his own wrists, and his watch and money were gone.

Governor Markham of California is represented as an anarchist in Harper's Weekly. The Governor is incensed. He says he answered every call for troops and that outrageously false reports of the situation at Sacramento were sent east.

It Should be in Every House.

J. B. Wilson, 371 Clay street, Sharpsburg, Pa., says he will not be without Dr. King's New Discovery for consumption, coughs and colds; that it cured his wife who was threatened with pneumonia after an attack of la grippe, when various other remedies and several physicians had done her no good. Robert Barber, of Cookeport, Pa., claims Dr. King's New Discovery has done him more good than anything he ever used for lung trouble. Nothing like it. Try it. Free trial bottles at S. J. Hodgkinson's drug store. Large bottles, 50 cents and \$1.

Carrying Out Its Policy.

The Reno Water Land and Light Co. has just purchased 155,000 feet of lumber to be used in the construction of new flumes on their Highland Ditch, in pursuance of their policy of continuing the ditch into Prosser Valley, thereby bringing thousands of acres of land under cultivation.

Bank of Nevada Meeting.

Genl. G. F. Turritt was elected a Director of the Bank of Nevada yesterday to fill the vacancy on the board caused by the death of M. D. Foley. Mr. Geo. Russell, the Vice-President of the Board, will act as President until the next annual meeting when the president will be elected.

Resolutions of respect to the late President were adopted and some routine business transacted.

Most Remarkable.

In its effects, and most useful in its application, the fragrant sosocond has become the most popular deodorant in existence. It is used and praised by everybody.

Funeral Notice.

The funeral of Mrs. Henry Thurtell will take place from the Episcopal Church at 4 o'clock to-morrow (Wednesday) afternoon.

Awarded.

Highest Honors—World's Fair.

DR. PRICE'S

CREAM

BAKING

POWDER

MOST PERFECT MADE.

A pure Cream of Tartar Powder. For home use, or for any other purpose.

40 YEARS' REPUTATION.

BUSINESS LOCALS.

A fresh assortment of Heath & Milligan's superior mixed paints at McCullough's.

After shaving or exposure to cold use Myo-Balm, 25 cents. Pinniger's, Virginia St. Lovers of a good cigar go to the Mccarr and get one of Herman Hyman's Cuban Blossoms.

Take your prescriptions to Pinniger's pharmacy, Virginia street. Pure drugs at lowest prices.

A new assortment of picture moulding artist materials and studies just received by McCullough.

Take your prescriptions to McCullough's no-commission drug store where you will get pure drugs at prices to suit the times.

Jack Griffo serves a first-class meal and fresh oysters in every style at the Palace Restaurant. Meals at all hours.

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Depend upon it mothers, there is no mistake about it. It cures Diarrhea, regulates the Stomach and Bowels, cures Wind Colic, softens the gums, reduces inflammation and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by S. J. Hodgkinson.

Strained Nerves.

Palpitation of the Heart and a General Break Down.

The Good Effect of Hood's was Marked and Permanent.

"C. I. Hood & Co., Lowell, Mass."

"Gentlemen—I was taken down sick last December, and became very weak with nervous trouble, palpitation of the heart, and a general break down. I had a good physician, but he failed to get me better. I could sit up only about half a day, until the 18th of March, when I concluded I would give Hood's Sarsaparilla a trial. When I had used it a short time, I could get up and go about the house all day. I have never enjoyed perfect health, but am now taking my fifth bottle of Hood's Sarsaparilla, and know it has helped me wonderfully. I have lost 110 lbs. of flesh, and I feel like a new man." Mrs. A. P. Langer, Bush's Mills, Ohio.

Hood's Pills act easily, yet promptly and efficiently, on the liver and bowels.

COMPARE THESE PRICES.
